

OneMember — Merchant Presentation

Speaker Notes | Confidential | 2026

Slide 1 — Title

SLIDE 1 — TITLE (Target: 1 min)

Open: "Thank you for giving us 20 minutes today."

OneMember is a merchant growth platform — not just a loyalty app. We give local businesses the tools that enterprise chains have always had.

Key talking points:

- Already live, merchants in Thailand using it today
 - This is a conversation, not a pitch
 - ASK: "What loyalty or membership programme do you run today?"
-

Slide 2 — The Problem Today

SLIDE 2 — THE PROBLEM (Target: 2 min)

Make the merchant feel understood before presenting a solution.

- Paper loyalty cards get lost, damaged, forgotten — merchant gains nothing
- Without data, targeted promotions are impossible
- Customer acquisition costs 5–7× more than retention
- No automation = missed birthdays, no win-back campaigns
- Competitors with digital loyalty gain measurable advantage

ASK: "How do you know which customers haven't been back in 3 months?"

Slide 3 — The Cost of Losing Customers

SLIDE 3 — THE COST (Target: 1 min)

Let the numbers breathe. Do not rush.

- 5–7× more expensive to acquire a new customer vs. retain one
- Repeat customers spend 67% more than new customers on average
- 5% increase in retention can drive 25–95% profit increase (Bain & Co)

Make retention feel like the highest-ROI activity in the room.

ASK: "If you could bring back 20% of lapsed customers, what would that mean?"

Slide 4 — Introducing OneMember

SLIDE 4 — INTRODUCING ONEMEMBER (Target: 2 min)

Five pillars — ACQUIRE, RETAIN, REWARD, UNDERSTAND, GROW.

- ACQUIRE — QR scan, digital membership, zero friction
- RETAIN — birthday rewards, expiry reminders, win-back triggers
- REWARD — points, stamps, custom redemptions
- UNDERSTAND — member demographics, visit frequency, spend patterns
- GROW — data-driven campaigns, segment targeting

Positioning: "We are not a loyalty app. We are a merchant growth platform."

Slide 5 — The Merchant Journey

SLIDE 5 — MERCHANT JOURNEY (Target: 2 min)

Walk each step. Make it feel achievable.

1. Register — 5 minutes, no contract
2. Campaign — set up points, stamps, or hybrid programme
3. Members — customers scan QR code and join instantly
4. Rewards — configure what members earn and redeem
5. Track — real-time dashboard: members, redemptions, revenue
6. Grow — use insights to run targeted campaigns and win-backs

ASK: "Which step feels most valuable for your business right now?"

Slide 6 — The Customer Journey

SLIDE 6 — CUSTOMER JOURNEY (Target: 1 min)

Customer sign-up is designed to take under 30 seconds.

1. Visit — customer arrives
2. Scan — one QR code on their phone
3. Share — first name and phone only (no app download)
4. Join — enrolled instantly, first points applied immediately
5. Earn — every visit earns points or stamps
6. Redeem — exchange for rewards the merchant defines
7. Return — rewards drive repeat visits

North Star: "A customer can join in under 30 seconds."

Slide 7 — Traditional vs OneMember

SLIDE 7 — COMPARISON (Target: 2 min)

Handle objections before they arise.

Traditional: paper cards lost, no data, manual tracking, no automation, no analytics, high setup cost.

OneMember: digital on any phone, full profile from first scan, automatic tracking, automated birthday + win-back, real-time dashboard, affordable flat fee.

ASK: "If you could see every customer's visit history in one screen, how would that change the way you run promotions?"

Slide 8 — Benefits for Merchants

SLIDE 8 — MERCHANT BENEFITS (Target: 1 min)

Connect each benefit to a pain point.

1. Grow member database automatically on every visit
 2. Know customers — demographics, frequency, spend
 3. Targeted promotions — right offer, right customer, right time
 4. Automate birthday + anniversary rewards (zero manual effort)
 5. Reduce reliance on blanket discounts
 6. One dashboard — members, transactions, rewards, reports
 7. Affordable flat monthly fee — no per-transaction costs
 8. Setup in under 10 minutes — no IT team needed
-

Slide 9 — Benefits for Customers

SLIDE 9 — CUSTOMER BENEFITS (Target: 1 min)

A great customer experience drives merchant adoption.

1. No app download — runs in any mobile browser
 2. Join in under 30 seconds — name and phone only
 3. Earn automatically on every visit
 4. Instant redemption at the counter
 5. Birthday rewards — delivered automatically
 6. Privacy-first — minimal data collection
 7. Works at every location of the business
 8. Digital card — can never be lost or forgotten
-

Slide 10 — Business Intelligence

SLIDE 10 — INTELLIGENCE (Target: 1 min)

Position as the near-future state — Phase 2 roadmap.

"Right now you get a clear dashboard. In the next phase, OneMember adds intelligence on top of your data."

Coming capabilities:

- Churn prediction — at-risk customers before they stop coming
- Campaign analytics — which promotions drive revenue
- Spend segmentation — top 20% of customers = 80% of revenue
- Visit frequency heat maps — best days for campaigns
- Win-back automation — offer triggers at 30-day lapse
- Revenue attribution — campaign ROI tracked directly

"We are building the CRM that local businesses have never had."

Slide 11 — Future Vision

SLIDE 11 — ROADMAP (Target: 1 min)

Direction, not promises. Brief.

Phase 1 (Now): Merchant loyalty — membership, rewards, campaigns, analytics

Phase 2: Customer Wallet — unified loyalty app for customers

Phase 3: Commerce — buy/sell within the OneMember ecosystem

Phase 4: POS Integration — connect or replace point-of-sale

Phase 5: Inventory — smart inventory linked to loyalty data

Phase 6: Accounting — link loyalty and sales to accounting

Phase 7: AI — personalised recommendations, predictive analytics

Phase 8: Regional — expand beyond Thailand to Southeast Asia

"We are building the operating system for local business."

Slide 12 — Why OneMember is Different

SLIDE 12 — WHY DIFFERENT (Target: 1 min)

Close the story. Six real differentiators.

1. Merchant-first — built for growth, not an app store rating
2. No app download — removes the #1 barrier to customer adoption
3. Privacy by design — minimum data, maximum trust
4. Thailand-first — Thai Baht, Thai language, local context built in
5. SME pricing — enterprise tools at local business price points
6. Built to scale — one outlet to a full chain, same platform

"We built this for merchants like you."

Slide 13 — Call to Action

SLIDE 13 — CALL TO ACTION (Target: 1 min)

Close with three clear options.

- A. Start Today — open a laptop, register right now. Takes 5 minutes.
- B. See a Demo — 15-minute live walkthrough: register, campaign, customer scan.
- C. Take Home — one-page summary, follow-up within 48 hours.

RULE: Never leave without a next step — a date, a time, a commitment.

ASK: "Which of these three makes the most sense for you today?"
